FOODTECH Geardrive Syn Oils

Premium Performance Synthetic Food Grade Gear Oils

Product Code: AVA, AVB, AVC

Product Description

Pennine Foodtech Geardrive Syn Oils are a range of premium quality synthetic food grade extreme pressure gear oils designed for the lubrication of gearboxes in food manufacturing plants. They are manufactured to InS H1 standard for lubricants where incidental food contact may occur. Incorporating extreme pressure, anti-corrosion and oxidation inhibiting additives to enhance performance, these products are ideally suited to meet the requirements of gearboxes used in and around food manufacturing and handling areas.

Applications

Recommended for use in enclosed gear drives, reducers, valves, conveyor guide rails, plain and rolling element bearings as well as other applications where a mild EP gear / lubricating oil is required for applications in food and beverage plants where incidental food contact may occur. Such plants include bakeries, dairies, breweries, bottling plants, canneries, animal feed plants, food packaging manufacturing plants and a wide range of other food related areas. The purity of these products also enables them to find use in enclosed gearboxes in other areas where a colourless, odourless, non-toxic lubricant is required.

Typical Test Data

Foodtech Geardrive Syn	100	150	220	460
Approval Number	1795428	-	1795429	1795430
ISO Viscosity Grade	100	150	220	460
Density @ 20°C	0.89	0.89	0.9	0.9
K. V. @ 40°C cSt	100	150	220	460
Flash Point °C	204	208	210	220
Pour Point °C	-40	-40	-42	-40

Availability

Pennine Foodtech Geardrive Syn Oils are available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre plastic bottles.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.
