Multirange SL

Universal Workshop Service Lubricant

Product Code: AUW

Product Description

Pennine Multirange SL is a highly versatile, multipurpose service lubricant designed to cater for a multitude of applications in a wide variety of industries. Multirange SL offers extremely effective performance in the following areas:

- Water Displacement
- Temporary Corrosion Protection
- Penetrating / Releasing Seized & Corroded Components
- Light Degreasing Applications

Applications

Pennine Multirange SL has a very low surface tension which aids rapid water displacement to even saturated parts and also assists in the effective penetration of seized and corroded metal parts including nuts, bolts, chains, gears, hinges, rollers, wheels, locks and other seized metal components. Multirange SL also exhibits excellent lubrication properties, which can assist in the reassembly of the freed parts. Multirange SL can also be used for light cleaning and degreasing operations throughout the workshop on a wide variety of materials.

Availability

Pennine Multirange SL is available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre containers.

Storage

Barrels of lubricant should always be stored in such a way that they will prevent the ingress of water when stored in the open.

Health & Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement; we therefore reserve the right to change specifications without notice.
