FOODTECH Machine Oils

High Performance Multipurpose Machine Oils
Product Code: AV2, AV3, AV4

Product Description

Pennine Foodtech Machine Oils are a range of high performance food grade anti-wear oils designed for use in circulatory systems. They are manufactured to InS H1 standard for lubricants where incidental food contact may occur. Incorporating anti-wear, anti-corrosion and oxidation inhibiting additives to enhance performance, these products are ideally suited to meet the needs of lubricating systems used in and around food manufacturing and handling areas.

Applications

Recommended for use in circulatory systems including light to moderate gear boxes, heat transfer systems etc in food and beverage plants where incidental food contact may occur. Such plants include bakeries, dairies, breweries, bottling plants, canneries, animal feed plants, food packaging manufacturing plants and a wide range of other food related areas. The purity of these products also enables them to find use in hydraulic systems in other areas where a colourless, odourless, non-toxic lubricant is required.

Typical Test Data

Foodtech Machine Oil	46	68	100
ISO Viscosity Grade	46	68	100
Density @ 20°C	0.88	0.89	0.89
K. V. @ 40°C cSt	46	68	100
Flash Point °C	205	205	215
Pour Point °C	-16	-16	-12

Availability

Pennine Foodtech Machine Oils are available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre plastic bottles.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.
