FOODTECH Ultracomp Syn

Food Grade Synthetic Compressor Lubricants

Product Code: AVD

Product Description

Pennine Foodtech Ultracomp Syn are premium quality food grade synthetic compressor oils designed for use in screw and piston air compressors. The products are manufactured for where incidental food contact may occur. Incorporating anti-wear, anti-corrosion and oxidation inhibiting additives to enhance performance, they are ideally suited to meet the needs of air compressors used in and around food manufacturing and handling areas.

Applications

Recommended for use in screw (46) or piston (68) air compressors commonly found in food and beverage plants where incidental food contact may occur. Such plants include bakeries, dairies, breweries, bottling plants, canneries, animal feed plants, food packaging manufacturing plants and a wide range of other food related areas. The purity of these products also enables them to find use in air compressors in other areas where a colourless, odourless, non-toxic lubricant is required.

Typical Test Data

Foodtech Ultracomp Syn	46	68
ISO Viscosity Grade	46	68
Density @ 20°C	0.88	0.84
K. V. @ 40°C cSt	46	68
Flash Point °C	205	250
Pour Point °C	-15	-45

Availability

Pennine Foodtech Ultracomp Syn are available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre plastic bottles.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Health & Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement, we therefore reserve the right to change specifications without notice.
