Ultravac Chillair 68

Refrigeration Vacuum Pump Oil
Product Code: ABY

Product Description

Pennine Ultravac Chillair 68 is a refrigeration vacuum pump oil manufactured from specially selected hydrotreated naphthenic base fluids fortified with a complex additive package ensuring outstanding low temperature performance along with good film strength and low friction and wear properties. The product offers rapid oil distribution and excellent sealing properties in high vacuum applications.

Applications

Pennine Ultravac Chillair 68 is primarily recommended for the effective lubrication of vacuum pumps operating in refrigeration environments with an absolute pressure of 50 microns of mercury or lower. Also suitable for other industrial applications where a product with exceptional low temperature characteristics is required such as hydraulics systems.

Typical Test Data

	ABY
Ultravac Chillair 68	
ISO Viscosity	68
Density @ 15°C	0.910
K.V. @ 40°C cSt	66.62
K.V. @ 100°C cSt	7.70
Flash Point °C	190
Pour Point °C	-32

Certificate Number: 9480

Availability

Pennine Ultravac Chillair 68 is available in 1000 litre IBC's, 205 litre barrels, 25 litre drums, 5 litre and 1 litre plastic bottles.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Health & Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement, we therefore reserve the right to change specifications without notice.
