Penease 50

Economical Concrete Mould Release Agent

Product Code: ACC

Product Description

Pennine Penease 50 is an economical low viscosity concrete mould release agent. This product is classed as a chemical mould release agent as it includes specially designed components to help to “chemically” release the casting from the mould or form.

Applications

Pennine Penease 50 is supplied ready to use and is suitable for steel and wooden types of mould and form face material. It can be applied by brush, swab or spray, and is designed to give a good surface finish with easy removal. This product is not usually recommended for use on rubber or plastic moulds.

Typical Test Data

	ACC
Density @ 15°C	0.84
K. V. @ 40°C cSt	6

Availability

Pennine Penease 50 is available in bulk, 1000 litre IBC's, 205 litre barrels and 25 litre drums.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Health & Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement; we therefore reserve the right to change specifications without notice.
