## Running In Oil

Low Detergent Running In Oil  
Product Code: A0E

### Product Description

Pennine Running In Oil is a low detergent engine oil designed for the “running in” of new or rebuilt engines. It is based on highly refined virgin base oils with additives to give improved oxidation and corrosion resistance, but it does not contain viscosity index improvers.

### Applications

Pennine Running In Oil is recommended for the running in of new and reconditioned engines in accordance with manufacturers recommendations.

### Typical Test Data

SAE Classification	30
Density @ 20°C	0.88
K. V. @ 40°C cSt	84.1
K. V. @ 100°C cSt	10.1
Viscosity Index	100
Flash Point °C	210

### Availability

Pennine Running In Oil is available in bulk, 205 litre barrels, 25 litre drums and 10 litre and 5 litre plastic bottles.

### Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

### Health and Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement, we therefore reserve the right to change specifications without notice.
