Metacut EL

High Performance Spray Mist Lubricant

Product Code: AFL

Product Description

Pennine Metacut EL is a specially developed neat metalworking fluid for use in mist applied systems. This product is chlorine free, non-toxic, water white and very low odour and is relatively pleasant to use. It offers good lubricity, giving good surface finish, and reduced power consumption.

Applications

Metacut EL is suitable for use with all ferrous and non-ferrous metals. This versatile product is ideally suited to oil mist applications, such as those commonly fitted to saws, where it's low odour and low toxicity give a more pleasant working environment. Excellent thermal and oxidative stability also contribute to keeping the machine clean and free from the gummy deposits associated with other fluids used in these applications.

Typical Test Data

| | |
|-------------------|------|
| Density @ 15°C | 0.85 |
| K.V. @ 40°C (cSt) | 15 |
| Flash Point (°C) | 180 |

Availability

Pennine Metacut EL is available in bulk, 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre plastic bottles.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Health & Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement, we therefore reserve the right to change specifications without notice.
