Metacut SC-F

General Purpose Chlorine Free Neat Cutting Oil

Product Code: AFQ

Product Description

Pennine Metacut SC-F is a pale coloured, low odour, multipurpose neat cutting oil designed for use in modern high speed sliding head CNC lathes and multi-spindle machines. Manufactured from highly refined virgin mineral oil, the product incorporates non-staining chlorine and sulphur free extreme pressure additives, anti-oxidant and anti-mist additives making the product suitable for the rigorous demands of modern machining techniques.

Applications

Metacut SC-F is suitable for a wide range low to moderate duty operations on materials including mild steels, aluminium and brass. The light colour and anti-misting properties offer the user excellent work piece visibility along with an improved working environment and the anti-oxidant package eliminates sticky residues and lacquers forming even when employed under 24 hour "lights out" operations.

Features & Benefits

- | | | |
|--------------------------------------|---|---------------------------------|
| • Pale coloured | ~ | Excellent work piece visibility |
| • Good inherent lubricity | ~ | Promotes improved tool life |
| • Highly effective anti mist package | ~ | Improved working environment |
| • Outstanding oxidation resistance | ~ | Eliminates lacquers & residues |
| • Low odour | ~ | Improved operator acceptability |
| • Chlorine free | ~ | Reduced disposal costs |

Typical Test Data

Density @ 15°C	0.89
K.V. @ 40°C (cSt)	22.2
Flash Point (°C)	198

Availability

Pennine Metacut SC-F is available in bulk, 1000 litre IBC's, 205 litre barrels and 25 litre drums.

Storage, Health and Safety

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.
