

Penstral GX 192

Premium Performance Lithium Complex Grease

Product Code: ASE

DESCRIPTION:

Penstral GX 192 is a superior lithium complex multi-purpose grease with the inclusion of fine particle molybdenum disulphide and extreme pressure additives. The molybdenum disulphide naturally adheres to metal surfaces that are moving against each other under pressure, forming a lubricant film that will stay in place giving excellent lubrication and protection long after the life of conventional greases.

APPLICATIONS:

Lubrication of; plain bearings, ball & roller bearings (Especially those working under heavy load), General chassis lubrication, tractors & farm machinery, earth-moving & off-highway equipment, trucks, trailers, vans & cars, cranes & mobile plant, factory machinery, crushing & screening plant, angle pads, fifth wheel assemblies and many general applications where a superior long-life product is required.

TYPICAL PHYSICAL CHARACTERISTICS:

Appearance	Smooth Grease.
Texture	Adhesive - Tacky
Colour	Grey / Black
Worked Penetration	265 - 295.
Temperature Range	-20°C to +160°C
Drop Point	>250°C
Soap	Lithium Complex
Base Oil	Mineral Oil
Four Ball Weld Load (IP 239)	> 500Kg

PACKAGING:

Penstral GX 192 is available in 180 kilo, 50 kilo & 12.5 kilo pails, along with 400g cartridges.

Storage, Health and Safety

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement; we therefore reserve the right to change specifications without notice.
