Petroleum Jelly 785R

Multipurpose Clean White Petroleum Jelly

Product Description:

Pennine Petroleum Jelly 785R is an exceptionally pure and highly refined product that meets the requirements of most internationally known pharmacopoeias including BP and USP etc. The product is a soft Petroleum Jelly with a silky long-fibred structure and a glossy appearance. Petroleum jelly 785R is odourless and tasteless, it is also resistant to oxidation and has good photochemical stability.

Applications:

Pennine petroleum Jelly 785R is widely used as a lubricant and preservative, in power cable and condenser industries the product is used as an isolating compound. Petroleum Jelly 785R has many other general applications throughout industry including being used as a release agent, plasticizer, sealing compound, pigment carrier and anti-corrosion compound.

Typical Test Data:

Appearance:	Long-fibred, Glossy Semi-solid.
Colour:	White
Congealing Point:	47°C to 53°C
Drop Point:	56°C to 62°C

Availability

Pennine Petroleum Jelly 785R is available in 180kg Barrels, 50kg and 12.5kg kegs.

Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

Health and Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement; we therefore reserve the right to change specifications without notice.
