## Rustguard Aqua

Solvent Free Water Soluble Corrosion Preventative

Product Code: ADC

### Product Description

Pennine Rustguard Aqua is a specially formulated solvent free medium term rust preventative supplied as a concentrate to be diluted with water before use. It has a high flash point and a low odour and is suitable for use in applications where the use of a solvent containing product is not permitted for health and safety reasons. It is used as an effective, easy to apply, easily removed and economical rust proofing oil.

This product, being solvent free, offers the advantages of a more pleasant working environment, reduced fire hazard and greater economy in use when compared to hydrocarbon solvent based products.

### Applications

Rustguard Aqua is recommended for use in applications such as medium-term stockholding of bright steel, interim protection of components awaiting further machining or assembly, or as a rust preventative for general use in machine shops or tool rooms. This product is best applied by immersion but may also be applied by brush or spray. It may be removed by the simple degreasing techniques commonly used in industry.

This product should be diluted with water at dilutions from 5 to 30% depending on the application and the protection required. Once applied the water must be allowed to dry off for maximum protection.

This product is not recommended for use in applications exposed to the elements due to the risk of re-emulsification of the coating.

### Typical Test Data

|   |                          |
|---|--------------------------|
| Appearance                                  | Dark Amber Mobile Liquid |
| K. V. @ 40°C (cSt)                          | 34                       |
| Flash Point (°C)                            | 218                      |
| Film Type when Dry                          | Oily/Greasy              |
| Drying Time @ 20°C (to 98% Water Loss), hrs | 3                        |
| Full Protection, hrs                        | 24                       |
| Protection (Indoor)                         | Up To 6 Months           |

Product Code: ADC

### Availability

Pennine Rustguard Aqua is available in 1000 litre IBC's, 205 litre barrels, 25 litre drums and 5 litre tins.

### Storage

Barrels of lubricant should always be stored in such a way that will prevent the ingress of water when stored in the open.

### Health and Safety

Please refer to the relevant Health and Safety Data Sheet, a copy of which is freely available to all our customers.

Data represented is Typical of that obtained with normal production tolerances and does not constitute a specification. The policy of Pennine Lubricants is one of continual improvement, we therefore reserve the right to change specifications without notice.
